Dear Bob:

Just a brief note to enclose the latest agenda and list of participants for our meeting on Europe, April 5 and 6.

As you will note, Bob Osgood's effort to sum up the policy implications of the meeting will be elaborated upon by a panel consisting of Hal Sonnenfeldt, Bob Komer, and Alton Frye. I think it very important to have the economic dimension of US-European relations well represented, and hence your presence on the panel is much to be desired. Would you be kind enough to let me know if you could also participate on the concluding panel?

Again, we all look forward to your presence at the conference.

Sincerely,

Milton Kovner
National Intelligence Officer
for
Western Europe
